

THE RINELLA RETIREMENT BENEFIT SCHEME

The Rinella Retirement Benefit Scheme ("the Scheme") is a member-directed personal pension scheme regulated by the Malta Financial Services Authority, which meets the requirements to be considered a Qualifying Non UK Pension Scheme ('QNUPS').

A QNUPS may offer retirement planning opportunities, including a potential exemption from UK Inheritance Tax, and it is also not subject to the UK Lifetime Allowance.

The Scheme is a robust pension structure based in a stable jurisdiction with specific pension regulation and as such may be a suitable arrangement for receipt of pension transfers from other international and foreign pension plans. Furthermore, Malta has full EU member status and has an established financial services industry, which makes it an extremely attractive jurisdiction for international pensions. There are over 70 double tax treaty arrangements in place which cover pension payments, making Malta a suitable option for international Scheme members. The Scheme is designed to suit a variety of retirement planning budgets.

Sovereign Pensions Services Limited is the retirement scheme administrator, and is licensed and regulated by the Malta Financial Services Authority.
