INTRODUCING RANA

RegisterAnAircraft.com ('RANA') is the Gibraltar based aviation division of the Sovereign Group. We offer a comprehensive range of services to clients with aviation assets.

The bulk of our offering is aimed at owners and operators of corporate jets, turboprops and helicopters but some of our products can be tailored to other sector businesses including commercial airlines, freight operators, flying schools and general aviation flyers.

Despite our branding, we don't limit ourselves to aircraft registration. We are also able to assist with

- ✓ Ownership solutions
- ✓ Aviation insurance
- ✓ Aircraft finance
- ✓ A knowledge base of aviation consultancy and photography
- ✓ Other fiscal and crew related services

The RegisterAnAircraft.com team can offer worldwide clients service tailored to individual needs with a depth of knowledge of the corporate aircraft industry. Backed by the experience and geographical reach of the wider Sovereign Group, we are confident that our aviation service is efficient, responsive and tailored to those individual needs.

Established in 1987, The Sovereign Group provides a full range of wealth management services from its strategically located office network. Its core business remains the creation and management of companies, trusts and other structures. In addition to RANA, the Group offers tax and succession planning, pensions, asset management, legal, insurance, accounting and yacht registration services.

...A comprehensive range of services to clients with aviation assets....

OWNERSHIP AND REGISTRATION

Aircraft can be registered in the name of the owner, but registering an aircraft in the name of a company or special purpose vehicle (SPV) provides a number of distinct advantages. Access to corporate limited liability and enhanced levels of confidentiality may be the most immediate, but a company structure also offers significant potential benefits in respect of inheritance tax and succession issues, as well as reducing transfer fees in any future sale of the asset.

All such corporate structures must comply with the current legislation in the home country of the beneficial owner and with international standards. With over 25 years' experience in the field, Sovereign is well placed to advise on these issues.

Whether a client is purchasing a new or a used aircraft, or simply re-registering an existing aviation asset, RegisterAnAircraft.com will liaise with aircraft manufacturers, dealers and brokers at all stages of the process.

RANA is able to advise on the most appropriate registry for your aircraft. Issues such as the cost of registration, intended mode of operation, ease of process, acceptance of technical standards, geographical location and language will all need to be considered. In addition to its comprehensive knowledge base, RANA benefits from well-established links with aircraft registries in Europe, the Caribbean and elsewhere.

...Access to corporate limited liability and enhanced levels of confidentiality...

INSURANCE AND FINANCE

RANA clients can obtain world class brokerage and competitive quotations through the dedicated team at Sovereign Insurance Services (SIS). Based in Gibraltar, SIS can offer direct links to underwriters based at Lloyds of London and elsewhere and provides a professional service in often time critical situations to owners and operators of private aircraft and helicopters, commercial airlines and other aviation related businesses.

Coverage can include –

- Airframe
- Hull
- Power plant for both new and used aircraft
- Flying schools
- Fixed base operators
- General aviation/home build flyers
- Public liability
- Kidnap and ransom insurance

...World class brokerage and competitive quotations – source finance from the widest potential market...

The economic climate is difficult although certain geographical areas continue to demonstrate growth in the aircraft market. In spite of this, RANA has built up relationships with a number of banks, finance houses, leasing companies and groups of individuals who may demonstrate an appetite for investment in the aviation sector. The sourcing of finance for aircraft or aviation related investment is of course viewed on a strictly case-by-case basis with tailored terms and conditions. We can assist clients in trying to source finance from the widest potential market.

OTHER SERVICES

- Aviation consultancy – From providing insight into potential options for corporate jet ownership and operation through to a complete database of commercial and corporate aircraft airframes, RANA's specialist consultants can add critical value to the decision making process.
- Aircraft photography – RANA Director Brian T Richards is well known in the specialist field of commercial and corporate aviation photography having travelled the world in pursuit of aircraft since 1984. With Brian's expertise and huge back catalogue of images RANA is able to offer a service provided by few of our competitors.
- New/used aircraft sourcing and evaluation
- Tax planning
- VAT
- Customs and Import Duties
- Crew payroll and pensions

*...Experienced,
friendly and cost
effective advice and
support at all times...*

We cannot guarantee you clear skies but we can promise you experienced, friendly and cost effective advice and support at all times. Contact RANA for an initial, no obligation consultation.
