Client Due Diligence

In order to comply with prevention of money laundering and funding of terrorism regulations, the trustee is required to verify your identity, address and source of wealth. Failure to provide complete information may delay your application.

1. Verification of Identity

Please provide an original certified copy of your passport clearly showing your name, passport number, picture, nationality, date of birth, country of issue and date of issue.

2. Verification of Address

Two forms of evidence of your residential address are also required. These should be in the form of either an original or an original certified copy of a bank statement or utility bill (not including mobile telephone bills) no more than three months old.

Documents may be certified by a lawyer, notary public, member of the judiciary, senior civil servant, serving police officer or customs officer, an officer of an embassy, consulate or high commission, an accountant, an actuary or a director, company secretary or manager of a financial services provider recognised by a regulatory body. If you intend to have your documents certified by an individual not listed above, please contact us for further guidance.

The certification should be evidenced by a written statement stating that:

- the document is a true copy of the original document;
- the document has been seen and verified by the certifier; and
- in the case of a passport, the photo is a true likeness of the applicant.

All certifications should be signed by the certifier, dated and contain the certifier's stamp, position, identity of the relevant regulatory authority and any approval number. We have set out overleaf a certification guide but please contact us if you have any query regarding the correct certification of documents.

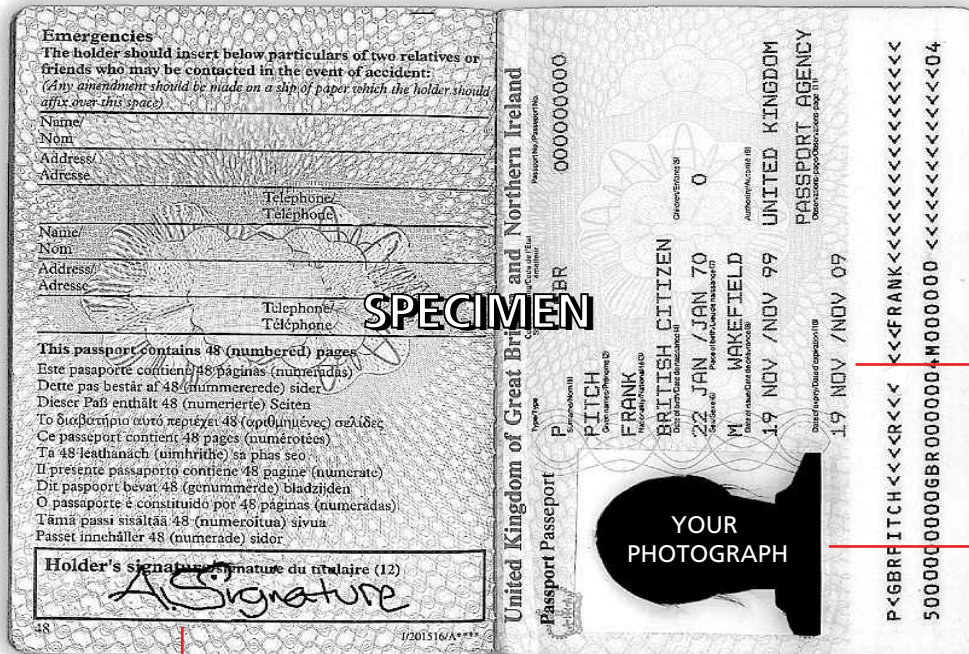

Below we have provided an address verification letter which may be used if it is impossible to obtain and provide other forms of evidence.

3. Source of Wealth

The trustee requires full details in order to establish source of wealth, i.e. the origin of the assets you intend to transfer into your pension. To satisfy this requirement, please provide an up to date copy of your curriculum vitae ("CV") or complete the Employment History section of this form. In addition please provide certified supporting documentation to evidence how the assets were accumulated (e.g. inheritance, sale of property, divorce, employment bonus or remuneration). Investment Direction

The Scheme entitles members to provide directions to the trustee on how the retirement fund should be invested. Please indicate your preference below. Sovereign does not provide investment advice. Your investment choice should therefore only be stated once you have arranged advice from your Professional Advisor.

1. We will provide our own investment directions and hereby direct you to invest initial pension funds as follows:

(We will only accept instructions signed by you)

2. We hereby appoint our Financial Advisor to provide investment directions on our behalf and confirm that you may accept directions from our Financial Advisor until such time as we notify you otherwise in writing. We understand that our Financial Advisor will be entitled to provide directions without prior reference to us. We agree that the trustee shall have no liability for any losses arising from you acting on such directions and we shall indemnify the trustee to the fullest extent permitted by law against all actions, claims, losses, costs, penalties or liabilities arising out of such appointment. *(We will accept investment directions signed by your Financial Advisor and not you)*
3. We wish the trustee to appoint an investment manager nominated by us. We understand and acknowledge that the contractual relationship will be between the trustee and the investment manager and that the investment manager will manage the investment of the pension funds. *(We will accept investment directions from the investment manager appointed by us)*
4. We wish the Trustee to appoint a third party discretionary investment manager pursuant to clause 4 of the terms of the Scheme. We understand we can nominate which investment manager the Trustees may appoint but we appreciate that the appointment will be made by the Trustee and that the contractual relationship will be between the Trustee and the investment manager. *(The discretionary investment manager appointed by us will decide the investment of the fund on a discretionary basis)*

Investment Objectives

The objective of The International Retirement Savings Plan is to accumulate a trust fund to provide you with income during your retirement.

- We are very uncomfortable with any risk and accept that our capital may be eroded by inflation.
- We are prepared to take a small amount of risk to provide for the potential for growth over the medium to longer term.
- We are comfortable with risk and prepared to take a longer term view. This may mean the overall portfolio value fluctuates over the medium term however provides for the potential for growth over the portfolio over the long term.
- We are very comfortable with risk and willing to accept volatility in the portfolio value in order to provide for the potential for higher returns over the long term.

Risk Profile

Please tick the box that applies to you:

Risk Category Typical Characteristics

- 1 Lower Risk**
People in this category are conservative with their investments. They prefer taking a small amount of risk to achieve modest or relatively stable returns. They accept that there may be some short term periods of fluctuation in value.
- 2 Lower to Medium Risk**
People in this category are relatively cautious with their investments. They want to try to achieve a reasonable return, and are prepared to accept some risk in doing so. Typically these portfolios will exhibit relatively modest yet frequent fluctuations in value.
- 3 Medium Risk**
People in this category are balanced in their attitude towards risk. They don't seek risky investments but don't avoid them either. They are prepared to accept fluctuations in the value of their investment to try and achieve better long term returns. These portfolios will be subject to frequent and at times significant fluctuations in value.
- 4 Medium to High Risk**
People in this category are relatively comfortable with investment risk. They aim for higher long term returns and understand that this can also mean some sustained periods of poorer performance. They are prepared to accept significant fluctuation in value to try and achieve better long term returns.
- 5 High Risk**
People in this category are very comfortable with investment risk. They aim for high long term investment returns and do not overly worry about periods of poorer performance in the short to medium term. Ordinarily these portfolios can be subject to the full extent and frequency of stock market fluctuations.
